

A GUIDE TO TRANSFERRING TO **STEP BY STEP** FOSTERING

1. Assess whether changing fostering agencies is the right thing for you to do. You can take our online quiz to help make your decision.

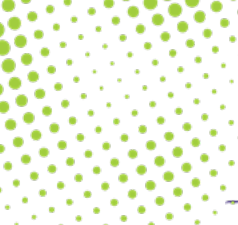

2. Do some research into different agencies and get in contact with their fostering teams. This allows you to learn more about them and ensure that they best fit your needs.

3. Let your current fostering agency or local authority know that you would like to transfer.

4. If **you are** currently caring for a foster child you will need to attend a meeting on transfer protocol.

4. If **you are not** currently caring for a foster child you will skip to the next step.

5. Your new agency will then carry out checks, similar to but much quicker than your initial fostering assessment.

6. Step by Step Fostering will then provide an independent panel with your paperwork.

7. The panel will make a recommendation as to whether you should be approved to foster and if everything goes well you'll be welcomed to our Fostering Team!

If you are interested in transferring agencies, **Step by Step Fostering** could be the perfect agency for you.
